

We create watches for  
people who love watches.

Scan to watch  
the brand video.

We do not strive to be the world's largest timepiece manufacturer.

Been there, done that. Ages ago. Instead, we'd be happy if you consider us the most credible, personal, and likeable.

Short-lived and trendy target groups are not our focus.

Nor are posh lifestyles. We create watches for people who love watches.

Unique timepieces. With a signature design. And innovative technology.

Our inventions have set many standards in watchmaking today. It takes the experience of a million timepieces to create continual innovation.

Our ideas for the future have always been based on tradition since 1861.

Junghans timepieces are highly valuable for enthusiasts. And affordable for many. If desired, also passionately customised.

It's not just about having the best watch. It's about having the best life with it.

Who loves such an idea? We do.

In over 100 countries around the globe, people are proud to wear Junghans.

Most likely because you can feel that our products have a distinctive home. A little town in the Black Forest: Schramberg.

Junghans. The Future of Tradition. Germany 1861.

## Collection overview

All our watches  
at a glance

# JUNGHANS

## Aquaris

Our debut for explorers  
of the seas.

The Junghans watch company is older than modern marine research. Even today, we know more about Mars than about our oceans. But every day, pioneers are working on changing that. And to do so, they need watches which work in every environment.

Ever since 1861, we have been propelling innovations at Junghans. Based on this experience, we have developed a watch made for the power of the seas: Junghans Aquaris.

When diving, sailing, swimming or surfing: it is about defying challenges. And the technology within the Junghans Aquaris keeps pace. Water resistant up to 50 bar. Maximum readability even at deep depths.

Junghans Aquaris is for all those who want to show that they love water. Built for the seas.

Aquaris Diver

Aquaris Diver

Aquaris Red

Aquaris Blue

New

# Aquaris Diver

Our new Diver watch is a stunning example of maximum readability. Whatever you want to do 500 metres down below, the new Aquaris Diver withstands the pressure. The case back of this diver watch presents a school of fish. The watch comes with a second strap made of synthetic rubber.

27/4668.44

**Technology**  
Reserved self-winding movement J830, power reserve of up to 48 hours, magnet-field shield

**Functions**  
Date, unilaterally locking inner rotating ring with quarter-hour scale and luminous substance

**Case**  
Stainless steel, diameter of 46.9 mm, height of 14.5 mm, screwed crown, screwed case back with school-of-fish motif

**Strap**  
Stainless steel bracelet with diver's clasp, extension, security clasp and Quick Release function  
**Extra** synthetic-rubber strap with diver extension and Quick Release function.

**Dial**  
Dark grey, elements with X1-grade green light luminous substance

**Glass**  
Double-sided antireflective sapphire crystal

**Water resistance**  
50 bar

 Maximum readability

## The new Aquaris Diver. So you know on the dot how long you have been under.

The inner rotating ring in combination with the minute hand featuring an arrow shape gives you a precise reading of your diving time. Vital instruments for the depths of the ocean.

27/4267.44

✦ Sporty Aquaris models

# Capacity for the depths. Colour for the eyes.

The Aquaris Red and Aquaris Blue are water resistant up to 50 bar. And make a statement on your wrist, with a sunray-brush dial in red or blue. For a watch that is at home in the depths – and a highlight on every other level.

27/4661.44

New

## Aquaris Red

27/4661.44

The self-winding movement on the inside is shielded by a soft iron alloy and protected against magnetic fields.

New

## Aquaris Blue

27/4660.44

The environmentally friendly luminous substance on the hands ensures optimal readability in the dark.

The Junghans Pilot is called Pilot because it has been engineered for pilots. It is as easy as that.

# JUNGHANS

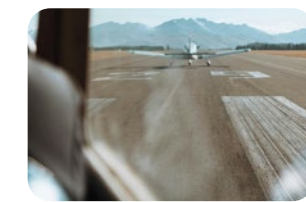

## Pilot

If you are a pilot yourself, then you know what makes for a good pilot watch. Easy-to-read dial during the day and night. Uncompromising precision. And reliable functionality under the most demanding aviation conditions.

We know this because we have been engineering watches for pilots for over 100 years. For the German Imperial Army Air Service, for the legendary Zeppelin airships or for the German Airforce as their first service watch.

Backed by this experience, we build pioneering pilot watches. Timepieces which even withstand the strongest G-forces in jet planes. That is state-of-the-art technology – tradition and precision redefined.

**Junghans Pilot. Built for the skies.**

Built for the skies.  
Made for everything else.

27/3492.00

# Pilot Chronoscope

You notice our fascination for aviation in each detail of the Pilot. The dial with its large numerals and luminous substance is reminiscent of genuine cockpit instruments.

#### Technology

Self-winding movement J880.3, power reserve of up to 42 hours

#### Case

Stainless steel, diameter of 43.3 mm, height of 14.4 mm, bi-directional turning bezel with luminated point, 7-times screwed stainless steel case back with "Aviation" engraving

#### Dial

Luminescent numerals and hands

#### Glass

Antireflective and domed sapphire crystal

#### Functions

Stop function, small second

#### Strap

Leather strap with rivets, stainless steel buckle

#### Water resistance

10 bar

## Pilot Chronoscope

27/3590.00

Like its historical idol, the Pilot is equipped with a bi-directional turning bezel.

## Pilot Chronoscope

27/3591.00

Historical design, traditional cockpit character – the epitome of a pilot watch.

✦ Chronoscope dial

A timepiece with a cockpit character.

27/3493.00

Easy to read

# Let your night flight take off.

Whether day or night – the easy-to-read dial of the Pilot provides all-important clarity. This is made possible by the luminescent hands and numerals, as well as the double-sided, antireflective sapphire crystal.

27/4490.00

# Pilot Automatic

A timepiece with a cockpit character. The design of the optimised date display has been inspired by historical aeroplanes, which Junghans equipped with on-board clocks in the middle of the last century.

27/4491.00

27/4495.00

## Technology

Self-winding movement J800.1.6, power reserve of up to 38 hours

## Case

Stainless steel, black DLC-coating (depending on model), diameter of 43.3 mm, height of 12.5 mm, bi-directional turning bezel with luminated point, 7-times screwed stainless steel case back with "Aviation" engraving

## Dial

Historical Junghans logo, luminescent numerals and hands

## Glass

Antireflective and domed sapphire crystal

## Functions

Small second, date at 12 o'clock

## Strap

Leather strap with rivets, stainless steel or DLC-coated buckle

## Water resistance

10 bar

High performance is  
a matter of course  
for Junghans Sport.

# JUNGHANS Sport

The highest performance requires precision.  
Our Sport watches are made for maximum performance:  
robust, water resistant, uncompromising precision.  
For racing drivers. For athletes. For people who test their limits.  
And beyond.

Our expertise in sports timekeeping has been growing for decades.  
From athletic competitions to Formula 1 racing and skiing sports.  
This experience is embedded in every Junghans Sport – combined with  
pioneering technology and a clear style.

**Junghans Sport. Built for extremes.**

Limited Edition

# 1972 Competition

The shape and colour are a clear reference to the design language of the 1970s. The contrast of the dial and the ellipsoidal case create extraordinary dynamics. Limited to 1,972 watches – a true collection piece.

27/4203.00

**Technology**  
Self-winding movement  
J880.5, power reserve  
of up to 48 hours

**Case**  
Stainless steel, ellipsoidal  
size of 45.5 x 41.0 mm, height  
of 14.5 mm, screwed crown,  
4-times screwed case back

**Dial**  
Anthracite with sunray  
brush, totalisers and  
tachymeter scale in orange,  
luminescent minute track

**Glass**  
Antireflective sapphire crystal

**Functions**  
Stop function, tachymeter,  
date, small second

**Strap**  
Leather strap with  
orange-coloured leather  
lining, stainless steel  
folding clasp

**Water resistance**  
10 bar

## If you appreciate contrasts, you'll love these watches.

Life isn't made up of contrasts alone – but it's a pleasure to adorn oneself with them. The 1972 Competition embodies uncompromising elegance: deep black with grey accents or radiant white with subtle matt nuances.

Matt and polished surfaces create a dynamic character.

## Meister S Quarz 35

47/4532.44

The lacquered dial is protected by the domed, antireflective sapphire crystal.

# Add colour to your wrist.

Dynamic and masterly at the same time. The colour variants of the Meister S inspire you to perform to your highest. Even in the water – thanks to a water resistance of up to 10 bar.

47/4531.44

Precise even when time  
does not play a role.  
Junghans Meister.

# JUNGHANS

## Meister

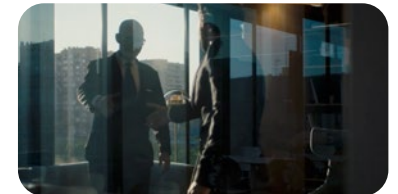

When technology and design come together, a masterpiece is created. This spirit is what shaped the design of the Junghans watches in the 1950s. This gave rise to a classic: the Junghans Meister.

For decades, it has stood for German craftsmanship. Made by skilled watchmakers in Schramberg. The finest design, premium materials, the highest care – these watches are masterpieces true to their name.

Yet Meister means more than that. It supports you in mastering special moments. A wedding. A graduation. A startup. The moment that changes everything. Times when demeanour, precision and stamina make the difference.

Made for masters of their trade by masters of their trade. A symbol of moments mastered.

**Junghans Meister. Built for life.**

High-quality companion

A masterpiece  
for life.

Radio-control and solar technology

## It is all the watch you need.

An elaborate design. Precise radio-controlled movement. Sustainable solar power. Practical stop function. And easy to operate on top of it all. You cannot fit more watch into the flat, finely domed case.

59/7201.00

Junghans Performance.  
Ready when you are.

# JUNGHANS

## Performance

We believe in reliability and punctuality.  
Values that we were raised with in Germany.  
Which is most likely the reason why we are so keen  
on developing watches that simply work.

The Junghans Performance delivers uncompromising precision.  
With solar power. With radio-control technology.  
With high-tech materials such as scratch-resistant ceramic and  
robust stainless steel.  
These are watches ready to stand up to any daily routine.

**Junghans Performance. Built to be ready.**

Into the future with solar power.

18/1402.00

18/1400.44

## Force Mega Solar

The Force Mega Solar combines radio-control and solar technology with good design that provides comfort and scratch-resistance. Because radio-controlled watches ensure the most precise time today, you can rely on this timepiece in all situations.

### Technology

Multi-frequency, radio-controlled solar-powered movement J615.84 (EU, JP, USA), dark power reserve of up to 21 months, time-setting via the Junghans app

### Functions

Large date display, perpetual calendar, sleep mode after 72 hours

### Case

Ceramic, diameter of 40.4 mm, height of 8.2 mm

### Strap

Ceramic bracelet with titanium folding clasp

### Dial

Glass dial, luminescent hands

### Water resistance

5 bar

### Glass

Flat sapphire crystal

## Force Mega Solar

18/1938.44

The case and bracelet are made of matt ceramic which is both lightweight and robust.

## Force Mega Solar

18/1133.44

The polished ceramic bracelet is not only elegant – it is also highly scratch-resistant.

Wanted: a place  
in the sun –  
on your wrist.

Thanks to the solar cells in the dial,  
the Force Mega Solar gets its power  
solely and infinitely from the sun.

18/1436.44

# Burning off energy outside? Not this solar-powered watch.

Our Spektrum Mega Solar uses the power of the sun to charge up whenever you are active outdoors – thanks to the solar dial.

18/1527.00

## Spektrum Mega Solar

18/1425.44

The robust mix of material and the water resistance of 10 bar make this our sportiest radio-controlled watch.

## Spektrum Mega Solar

18/1526.00

The synthetic rubber strap comfortably wraps around the wrist.

New

## Milano Mega Solar

56/4629.44

The fine hour appliques and the blue glass solar dial create a modern appearance.

New

## Milano Mega Solar

56/4621.44

The radio-controlled solar-powered movement guarantees precise time – while the clear design shines in deep green.

# Pioneering work has a name: Milano Mega Solar.

When it comes to radio-control and solar technology, Junghans has done pioneering work. For timepieces which are both precise as well as resource-friendly.

56/4628.44

Minimalism or functionality?  
Why “or”?  
Junghans FORM.

# JUNGHANS FORM

Form follows function is a golden rule of design.  
And we believe: form follows fun.  
And that advanced innovations need  
design that is just as sophisticated.

The Junghans FORM is minimalist in its design.  
Yet surprisingly well fitted out.  
True to German industrial design.  
For all those who do not want to choose between technology and style.

**Junghans FORM. Built for functional design.**

Limited Edition

# FORM A

## Bauhaus Edition

The Bauhaus Dessau, one of the most important sites of modern architecture, has turned 100. We are celebrating the anniversary with a colorful FORM Edition.

27/4533.44  
Limited to 1000 watches

Self-winding movement J800.1, power reserve of up to 38 hours, date display

### Case

Stainless steel, black matt PVD coated, diameter of 39.3 mm, height of 9.5 mm, 4-times screwed glass case back with mineral glass and partially transparent "Bauhaus" motif

### Dial

Black matt, bowl-shaped, hour appliqués in 12 colours

### Glass

Flat, antireflective sapphire crystal

### Strap

Stainless steel Milanaisé bracelet, black PVD coated with safety buckle and Quick Release

### Water resistance

5 bar

# Form follows fun

## 100 years of Bauhaus Dessau

1925 – 2025

FORM Quarz Bauhaus Edition  
41/4580.44  
Limited to 1000 watches

Design and function  
perfected.

FORM A in stainless steel  
27/4731.00

## FORM A

The minimalist Form A follows the guiding principle of German industrial design. Within the comfortably flat case, the concave dial amazes with its eye-catching three-dimensional design.

# Casual street style for the wrist

41/4481.00

★ Fashionable colour variants

# FORM in fantastic colour.

47/4455.00

## FORM Ladies

47/4457.44

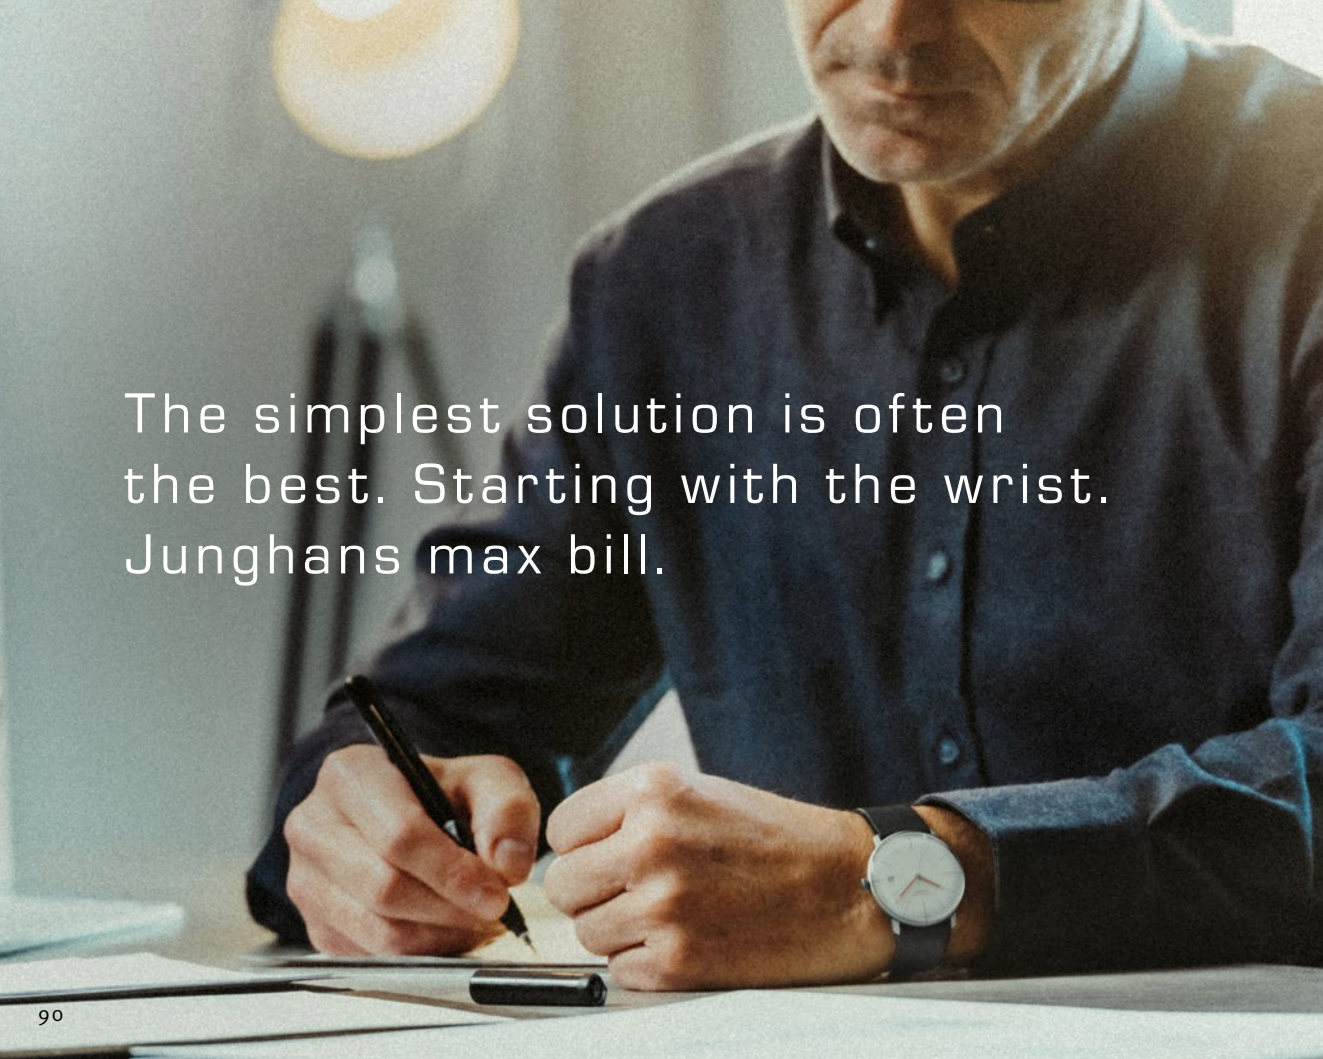

Timelessly functional, this model comes with a Milanese strap.

## FORM Ladies

47/4456.00

The cool blue color is reflected in the hands' inlay.

The simplest solution is often the best. Starting with the wrist. Junghans max bill.

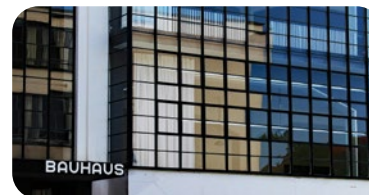

# JUNGHANS

max bill

A design language does not have to say a lot to mean a lot. The Junghans max bill has virtually remained the same since 1961. Minimalism in its purest form, created by Max Bill.

The Bauhaus student worked without ornamentations or embellishments. What remains is a dial that continues to be legendary today. Logical in its design, radically reduced to the functional essentials. Timeless industrial design for the wrist.

**Junghans max bill. A true Bauhaus icon.**

“watches as far away from fashion as possible.”

This photo shows an original watch from the sixties. The timeless design can still be found in the collection models today.

## max bill Handaufzug

“watches ... as timeless as possible without forgetting the time.” Max Bill aimed for a reduction to the essentials while remaining modern. Just one example of this are the characteristic, logically styled dials of these design icons.

### Technology

Hand-winding movement J805.1, power reserve of up to 42 hours

### Strap

Leather strap, stainless steel buckle, Quick Release function for fast and easy strap exchange

### Case

Stainless steel, diameter of 34.0 mm, height of 9.0 mm

### Water resistance

5 bar

### Dial

Matt silver-plated, luminescent minute track and hands

### Glass

Antireflective and domed sapphire crystal

**max bill**  
**Kleine Automatic**

27/4107.02

With a diameter of 34 mm,  
the watch is the same size as  
the original from 1961.

**max bill**  
**Kleine Automatic**

27/4106.46

This timepiece is a reflection  
of six decades of great  
watch design.

# The numbers squared.

Max Bill designed the numbers to feature a squared shape.  
Particularly the “4” is reminiscent of a chair turned upside down.

27/7108.02

What's left when you strip  
away all that's unnecessary?  
This.

27/4700.02

**max bill**  
Automatic

27/3501.02

The purist dial puts  
the focus on the  
essentials: the time.

**max bill**  
Automatic

27/4002.46

The watch automatically  
takes on the energy created  
by the wearer.

# max bill

## Automatic Bauhaus

Minimalist design with red accents: the Bauhaus models of the max bill line honour the red doors of the Bauhaus building.

27/4009.02

**Technology**  
Self-winding movement J800.1,  
power reserve of up to 38 hours

**Case**  
Stainless steel, diameter of  
38.0 mm, height of 10.0 mm,  
4-times screwed glass case back  
with translucent "Bauhaus" motif

**Dial**  
White matt, luminescent dots,  
hands with red-coloured inlay

**Glass**  
Antireflective and domed  
sapphire crystal

**Functions**  
Date

**Strap**  
Leather strap, stainless  
steel buckle, Quick Release  
function for fast and easy  
strap exchange

**Water resistance**  
5 bar

# A design so subtle it catches the eye.

The max bill Automatic Bauhaus featuring a purist design. The consistent result of the Bauhaus idea, where form follows function.

27/4308.02

# Minimum design. Maximum feeling.

A minimalist design guides the attention to the essentials.  
Such as the hands with the coloured inlay in classic Bauhaus red.

27/4409.02

## max bill Chronoscope Bauhaus

The window of the “Bauhaus” motif on the case back gives a glimpse into the workings of the mechanical movement within.

27/4303.02

**Technology**  
Self-winding movement  
J880.2, power reserve of  
up to 48 hours

**Case**  
Stainless steel, diameter of  
40.0 mm, height of 14.4 mm,  
5-times screwed glass case  
back with translucent  
“Bauhaus” motif

**Dial**  
White matt, luminescent dots,  
hands with red-coloured inlay

**Glass**  
Antireflective and domed  
sapphire crystal

**Functions**  
Stop function, date

**Strap**  
Leather strap, stainless  
steel buckle, Quick Release  
function for fast and easy  
strap exchange

**Water resistance**  
5 bar

## max bill Chronoscope

27/4003.46

The Chronoscope with a 40 mm diameter also features the typography created by Max Bill.

## max bill Chronoscope

27/4600.02

The model with the fine line dial amazes with its purist form and beautiful symmetry.

Minimalist-style stop watch

# Such a low profile. So much high functionality.

Form follows function. Which is why the max bill Chronoscope manages to offer so much functionality while remaining minimalistic in its design.

27/4502.02

Separate displays

We give time the space it needs.

max bill Regulator  
27/4492.46

# max bill Regulator

For those who look at time differently. Seconds, minutes and hours are radically separated across different displays on the max bill Regulator.

max bill Regulator Bauhaus  
27/4493.02

**Technology**  
Self-winding movement  
J800.5, power reserve of  
up to 38 hours

**Case**  
Stainless steel, diameter of  
40.0 mm, height of 10.9 mm,  
4-times screwed glass case  
back with translucent  
"Bauhaus" motif

# max bill

## Quarz

The classic design timepiece is also available with a high-quality quartz movement. Always ready to go, the purist timekeeper is a reliable companion.

41/4461.02

41/4463.46

**Technology**  
Quartz movement J645.33

**Case**  
Stainless steel, diameter of 38.0 mm, height of 7.9 mm

**Dial**  
Matt silver-plated, minute track and hands featuring environmentally friendly luminous substance

**Glass**  
Antireflective and domed sapphire crystal

**Functions**  
Date

**Strap**  
Leather strap with buckle or stainless steel Milanese bracelet with safety clasp, Quick Release function for fast and easy strap exchange

**Water resistance**  
5 bar

With this watch, your sense of style is on display.

41/7872.02

Subtle design

# Dress your wrist in minimalism.

The clear, reduced design of the dial gives space to time.

47/7452.46

## max bill Ladies

47/7854.02

Matching the strap, the dial features a soft touch of grey.

## max bill Ladies

47/4555.02

A high-quality quartz movement ticks within the 32.7 mm case.

**max bill**  
**Ladies**

47/4250.46

The finely woven Milanaise bracelet combines aesthetics with wearing comfort.

**max bill**  
**Ladies**

47/4251.02

The straps with Quick Release function allow you to quickly and easily change the strap.

Colour-matching design

# Dial and strap in harmony.

The colour of the hour figures and the date printing perfectly match the strap. The numbered dial features the typography created by Max Bill for Junghans.

47/4556.02

# Your personal space-time continuum.

Time is relative, Albert Einstein once said. We think time can also be relatively beautiful. For example with a max bill table clock – at home or in the office.

383/2202.00 Radio-controlled EU  
363/2212.00 Quartz

## max bill Table Clock

383/2200.00 Radio-controlled EU  
363/2210.00 Quartz

The home accessory featuring  
an extraordinary design enhances  
any room.

## max bill Table Clock

383/2201.00 Radio-controlled EU  
363/2211.00 Quartz

Choose from two technologies:  
a radio-controlled or a  
quartz movement.

### **2026/2027 issue**

This catalogue presents our latest collection. Additional models are available at a Junghans partner near you, who is also happy to provide specialist consultation. To ensure the best visibility, the watches have been displayed either enlarged or reduced in size on some pages. Sales and delivery options, model and collection changes, technical modifications and errors are excepted.
